

## KVM Switch & Multiview

Bring your Workstation to the next level

### Take your workspace to the next level

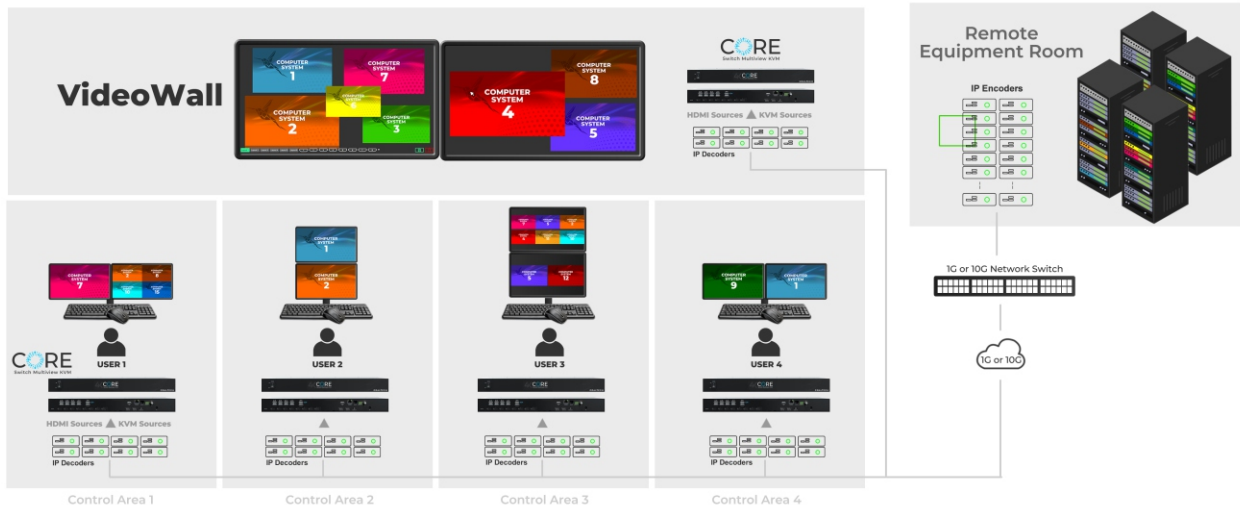

Operate up to 8 computers with only one set of mouse and keyboard with full free screen configuration and make your workspace more efficient and ergonomic. Switching between computers is done directly moving the mouse surfing between the sources displayed on screen.

Fast and easy custom layout design, with a Drag&Drop system. Just surf through your computers and move and resize the windows. Using the SMART Desktop ToolBar displayed on screen, store and upload layouts just with one click.

### Increase your desktop with Dual 4K output and get full control of your computers

### Build Hybrid Solutions combined with IP sources in Control Room applications

# SMART Desktop ToolBar

Easy & Quick Access to main control functions of your Desktop

## Instantly take control of all your computers

Moving the mouse between windows, just select a target computer and get full control with just one click.

## Up to eight Computers

Up to 8 computers can easily be visualized and operated in a custom layout.

## Compatible with Stream Deck

Use Stream Deck to switch Layouts, Sources and direct functions, or use a keyboard combination for switching functions.

## Hardware based KVM

Hardware design based in FPGA. Not software installation required.

## Applications

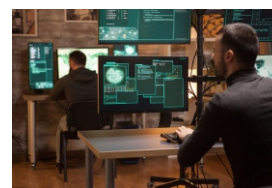

Government & Mission critical

Server Room & Data Center

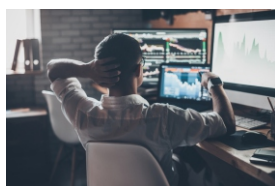

Industry and Control Rooms

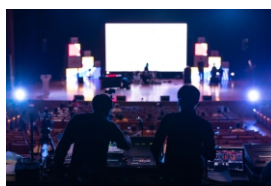

Engineering & Design

Broadcast, Live Stream and e-Sports

Stock and Banking Market

Content Management, Distribution & Live Events

Corporate

## Specifications:

HDMI Inputs	8 x HDMI FHD (1920x1080)
HDMI Outputs	2 x 4K HDMI
KVM Outputs	8 x USB (8 Computers)
KVM Inputs	1 User (2 USB Connectors)
Remote Control	Yes
Chassis	Aluminium chassis
Dimensions	426,00 x 160,00 x 44,00 mm (1U)
Weight	TBD
Power Supply	12VDC
Warranty	Warranty 2 years
